Industrial Valves Automation Instrumentation

Pressure and Temperature Regulators and Complete Line of Control Valves

Sanitary Regulators and Control Valves, Fractional Control Valves, and Sanitary Accessories

Fractional Flow Control Valves and Pressure Regulators for Extremely Low CVs and High Pressures

Instrument, Gauge, Block & Bleed, Needle and Manifold Valves

ASME Section VIII Safety Relief Valves

Pneumatic and Electric Actuation Solutions

Innovative Pilot Operated Pressure Control Technology for Challenging Applications and Highly Precise Control

Industrial and High Purity Cartridge Filters

Check Valves and Duplex Filtration Systems

Flow Meters, Smart Pressure, Differential Pressure and Temperature Transmitters

Flow Meters, Coriolis, Mag, Positive Displacement, Vortex, Turbine, and Ultra-Sonic

Automated Ball and Butterfly Valve Assemblies, Pneumatic and Electric Actuators

Linear and Rotary Pneumatic and Electric Control Valves, and Block Valves

Pressure Gauges, Diaphragm Seals, Industrial Thermometers, RTDs, and Transmitters

High Performance Pneumatic and Electric Coaxial Valves and Solenoid Valves

ASME Section VIII and Section I Safety Relief Valves

Process Control, Globe-Style, V-Port, Plug and Butterfly Valves

Variable Area Flow Meters, Switches, Transmitters and Turbine Meters

I/P Transducers, Air Filter Regulators and Bubbler Systems

Complete Line of Gate, Globe, and Check Valves

BTU Meters, Flow, Ultrasonic, and Mag Meters

Conservation Vents, Inline and End of Line Flame Arresters, and Tank Protection Systems
